

City Council Members,

On Tuesday March 25, 2025, Mayor Lambert came in to pick up a bundle of letters out of her mailbox. She walked in, grabbed the letters, and walked over to the front desk window clutching the letters. It was obvious that she knew what these letters were regarding too. I say this because she had not even opened them before ordering me in a demanding tone to scan all the council members' copies of these letters. At that time, I asked Ellen to come out due to the fact she had been the one handling all these letters on behalf of Megan while she was on vacation with her family.

Mayor Lambert spoke to Ellen and me in a very harsh tone and questions why we handle things the way we did. Ellen tried to explain we are following protocols. Mayor Lambert just continued to talk over her and question her. By this time, I was feeling very uncomfortable and intimidated. I was doing my best to calm the mayor down, but she was having no part of it. Ellen finally had to say something like we are just going to have to stop this conversation and that she would have to speak to Dann because we do not have the answers she was looking for. At that point she informed us she would not be speaking to Dann she would be speaking to legal counsel.

I have worked for the city for almost nine years, I have never had a council person speak to me in this manner, questions my actions or demand that I do something that is not part of my job description prior to Mayor Lambert. As most of you already know staff here at City Hall have had our share of citizens/Beachcombers being aggressive and demanding over past couple months I find it very unprofessional for a council person to act in the same manner. I will confess I personally was very shaken after Mayor Lambert departed.

I appreciate you taking the time to hear me out on this incident and how it made me feel.
